this manual is referred to as the flight attendant manual standard in section 705.139 of the Canadian Aviation Regulations. It contains the standards, policies, procedures, and guidelines that pertain to the development of an air operator's flight attendant manual. It is published for use by air operators and Transport Canada Civil Aviation Safety Inspectors. Given the large number of variables involved in flight operations applicable to flight attendants, it is difficult to prescribe a solution for every situation that may arise. Therefore, air operators shall develop their flight attendant manual applicable to their operation. Foreword, page 3.
