twelve brilliant historians of theory probe the mind of the romantic era in its thinking about music

the cambridge history of western music theory is the first comprehensive history of western music theory to be published in the english language a collaborative project by leading music theorists and historians the volume traces the rich panorama of music theoretical thought from the ancient greeks to the present day recognizing the variety and complexity of music theory as an historical subject the volume has been organized within a flexible framework some chapters are defined chronologically within a restricted historical domain whilst others are defined conceptually and span longer historical periods together the thirty one chapters present a synthetic overview of the fascinating and complex subject that is historical music theory richly enhanced with illustrations graphics examples and cross citations as well as being thoroughly indexed and supplemented by comprehensive bibliographies of the most important primary and secondary literature this book will be an invaluable resource for students and scholars alike

since its inception in the mid twentieth century american music theory has been framed and taught almost exclusively by white men as a result whiteness and maleness are woven into the fabric of the field and bipoc music theorists face enormous hurdles due to their racial identities in on music theory philip ewell brings together autobiography music theory and history and theory and history of race in the united states to offer a black perspective on the state of music theory and to confront the field s white supremacist roots over the course of the book ewell undertakes a textbook analysis to unpack the mythologies of whiteness and westernness with respect to music theory and gives for the first time his perspective on the controversy surrounding the publication of volume 12 of the journal of schenkerian studies he speaks directly about the antiblackness of music theory and the antisemitism of classical music writ large and concludes by offering suggestions about how we move forward taking an explicitly antiracist approach to music theory with this book ewell begins to create a space in which those who have been

marginalized in music theory can thrive

this is the first book to discuss in detail how rap music is put together musically and how it contributes to the formation of cultural identities for both artists and audiences it also argues that current skeptical attitudes toward music analysis in popular music studies are misplaced and need to be reconsidered if cultural studies are to treat seriously the social force of rap music popular musics and music in general drawing extensively on recent scholarship in popular music studies cultural theory communications critical theory and musicology kirms redefines music theory as meaning simply theory about music in which musical poetics the study of how musical sound is deployed may play a crucial role when its claims are contextualized and demystified theorizing local and global geographies of rap kirms discusses at length the music of ice cube the goodie mob krs one dutch group the spookrijders and canadian cree rapper bannock

aural education reconceptualising ear training in higher music learning explores the practice of musical aural training from historical pedagogical psychological musicological and cultural perspectives and uses these to draw implications for its pedagogy particularly within the context of higher music education the multi perspective approach adopted by the author affords a broader and deeper understanding of this branch of music education and of how humans relate to music more generally the book extracts and examines one by one different parameters that appear central to aural training proceeding in a gradual and well organised way while at the same time constantly highlighting the multiple interconnections and organic unity of the many different operations that take place when we interact with music through any music related activity the resulting complex profile of the nature of our relationship with music combined with an exploration of non western cultural perspectives offer fresh insights on issues relating to musical aural training emerging implications are proposed in the form of broad pedagogical principles applicable in a variety of different music educational settings andrianopoulou propounds a holistic alternative to aural training which acknowledges the richness of our relationship to music and is rooted in absorbed aural experience the book is a key contribution to the existing literature on aural education designed with researchers and educators in mind

with the report of the 16th meeting 1894 was issued the secretary s official report of the special meeting chicago 1893 containing a r  sum of the reports of meetings from 1876 to 1892

drawing on decades of teaching experience and the collective wisdom of dozens of the most creative theorists in the country michael r rogers s diverse survey of music theory one of the first to comprehensively survey and evaluate the teaching styles techniques and materials used in theory courses is a unique reference and research tool for teachers theorists secondary and postsecondary students and for private study this revised edition of teaching approaches in music theory an overview of pedagogical philosophies features an extensive updated bibliography encompassing the years since the volume was first published in 1984 in a new preface to this edition rogers references advancements in the field over the past two decades from the appearance of the first scholarly journal devoted entirely to aspects of music theory education to the emergence of electronic advances and devices that will provide a supporting if not central role in the teaching of music theory in the foreseeable future with the updated information the text continues to provide an excellent starting point for the study of music theory pedagogy rogers has organized the book very much like a sonata part one background delineates principal ideas and themes acquaints readers with the author s views of contemporary musical theory and includes an orientation to an eclectic range of philosophical thinking on the subject part two thinking and listening develops these ideas in the specific areas of mindtraining and analysis including a chapter on ear training and part three achieving teaching success recapitulates main points in alternate contexts and surroundings and discusses how they can be applied to teaching and the evaluation of design and curriculum teaching approaches in music theory emphasizes thoughtful examination and critique of the underlying and often tacit assumptions behind textbooks materials and technologies consistently combining general methods with specific examples and both philosophical and practical reasoning rogers compares and contrasts pairs of concepts and teaching approaches some mutually exclusive and some overlapping the volume is enhanced by extensive suggested reading lists for each chapter
