the economics profession has a lot to answer for after the late 1970s the ideas of influential economists have justified policies that have made the world more prone to economic crisis remarkably less equal more polluted and less secure than it might be how could ideas and policies that proved to be such an abject failure come to dominate the economic landscape by critically examining the work of the most famous economists of the neoliberal period including alan greenspan milton friedman and robert lucas the

authors robert chernomas and ian hudson demonstrate that many of those who rose to prominence did so primarily because of their defence of and contribution to rising corporate profits and not their ability to predict or explain economic events an important and controversial book the profit doctrine exposes the uses and abuses of mainstream economic canons identify those responsible and reaffirm the primacy of political economy

papers from a conference presented at the american enterprise institute on sept 25 2006
