Delisting of Stock Corporations in Europe and Beyond Campaign of Chaos Picking Presidents MUS - Mathematimus - Hyperelliptical Geometry *Vassilios Tountopoulos Larry J. Sabato Gautam Mukunda Stenio Musich*

this book examines delisting and the difficult questions it raises around investor protection from the perspectives of the company shareholders trading venues and supervisory authorities delisting is analysed with a view to finding common ground in the eu and exploring whether delisting should be part of the eu project of a capital markets union in order to answer the question of harmonisation at the european level the book also considers approaches in jurisdictions outside europe in particular the book looks at the legal situation in australia hong kong india south america and the usa offering a comprehensive and authoritative discussion of the major questions for listed companies who want to go private the book will be of great interest to academics lawmakers supervisors lawyers and judges the book s companion website bloomsbury pub delisting stock corporations provides access to reports and questionnaires on specific eu member states

larry sabato one of the leading experts in american politics brings together respected journalists and academics from across the political spectrum to examine every facet of the 2024 election and what its development and outcome will mean for the nation moving forward in frank accessible prose each author offers insight that goes beyond the headlines and dives into the underlying forces and shifts that drove the election from its earliest developments to its dramatic conclusion following sabato s introductory analysis the contributors provide a comprehensive review of everything in play during the 2024 elections exploring the nominating processes the unexpected handoff to kamala harris conventions and futures of both the democratic and republican parties and what

recent geographic and demographic electoral realignments might mean for america s politics beyond 2024

this book synthesizes a new way of understanding leader selection with research from political science management psychology and other fields to provide an objective non partisan way to evaluate presidential candidates that anyone can use and that requires only information about candidates that would be widely available before the election it s a system that american citizens can use to answer the most important question they are ever asked should this person be president we begin by identifying what sort of presidential candidates are likely to become presidents who will make a real difference surprisingly not all presidents do some despite the awesome power placed in their hands are surprisingly inconsequential then we ll examine some of the best and worst of the 44 members of history s most exclusive club which will help us understand what traits are likely to produce failed and successful presidencies and how to detect them next we ll use this lens to examine donald trump the modern president who has perhaps inflamed the most intense passions on either end of the political spectrum and joe biden the president as this book goes to print finally i will suggest some plausible reforms to the way we nominate candidates and changes to the powers of the presidency that might help us improve the quality and performance of future presidents
