this analysis examines the problem of measuring demand for recreation on national forests and other public lands current measures of recreation demand in forest service resource assessments and planning emphasize population level participation rates and activity based economic values for visitor days alternative measures and definitions of recreation demand are presented including formal economic demand and multiattribute preferences recreation assessments from national level renewable resources planning act assessments to site level demand studies are reviewed to identify methods used for demand analysis at different spatial scales a finding throughout the multiple scales of analysis with the exception of site level studies is that demand measures are not integrated with supply measures supply analyses in the context of resource assessments

have taken the form of mapped spatial inventories of recreation resources on the national forests based on the classification of recreational settings according to the opportunities they produce e g the recreation opportunity spectrum as such integration of demand analysis with these measures of supply requires measuring the demand for recreational settings to support management and planning decisions recreation demand analysis must also permit projection of changes in visitation at multiple scales as changes in management and policy alter recreational settings and as the demographics and behavior of the user base changes through time although this is currently being done through many formal economic studies of site demand methods are needed that scale up to higher levels of spatial aggregation several areas for research development and application of improved methods for demand analysis are identified and improved methods for spatially explicit models of recreation visitation and demand are identified as a priority area for research

meeting the needs of customers through effective recreation programs is imperative for leisure service organizations to survive and prosper in the twenty first century the authors of this book break new ground for recreation programming by interpreting it within the servant leadership approach servant leadership is based on the premise that all recreation providers serve their customers through programs the servant leadership approach simultaneously enhances the personal growth of workers and improves the quality and caring of our many institutions through a combination of teamwork and community personal involvement in decision making and ethical and caring behavior whether a leisure services professional works for a municipal recreation department providing recreational sports leagues for adults or for a nonprofit organization providing special events or as a commercial tour operator offering wilderness backpacking trips programming for parks recreation and leisure services a servant leadership approach provides both cutting edge concepts and practical knowledge for successful programming

bouve collection

focusing on ten different types of organizations ranging from nonprofit community organizations and armed forces recreation to sports management and travel and tourism sponsors this classic text is an invaluable resource for students considering a career in the recreation and leisure industry

the eleventh edition of kraus recreation and leisure in modern society provides a detailed introduction to the history developments and current trends in leisure studies it addresses contemporary issues facing the recreation and leisure profession and focuses on challenges and opportunities that impact the profession now as well as years from now extensive research into emerging trends helps support the text and provide insights into the future
